These files are for the 737-700, with four engine types, for use in FS2004. They may be used specifically with the PMDG 737-700 without modification. Place these files in your CDU\Types folder.

With the CDU running, select the aircraft with the thrust rating you want from the CDU.

Selection in CDU	Engine Model	Thrust Rating	Operators
B73G-7B20	CFM56-7B20	20,600 lbs	China Xinjiang Airlines, Easy Jet Airlines,Axon Airlines (for Stamatis <g>)
